

# International Cancer Control Partnership ECHO Program

## Welcome!

The session will begin soon.

Please:

- ✓ Put yourself on mute
- ✓ Turn on video if possible
- ✓ Use the chat to ask questions at any time
- ✓ Introduce yourself via chat when you enter the meeting

Note: These sessions will be recorded, and the recording made available to participants.

**FEBRUARY 16, 2022: CREATING AND USING A NCCP PRIORITY  
IMPLEMENTATION PLAN**

**KARIN HOHMAN AND LESLIE GIVEN, STRATEGIC HEALTH CONCEPTS**

# NCCP Implementation Plans: Options

PART OF THE  
PUBLISHED NCCP

A SEPARATE  
DOCUMENT, SUCH AS  
AN ACTION PLAN

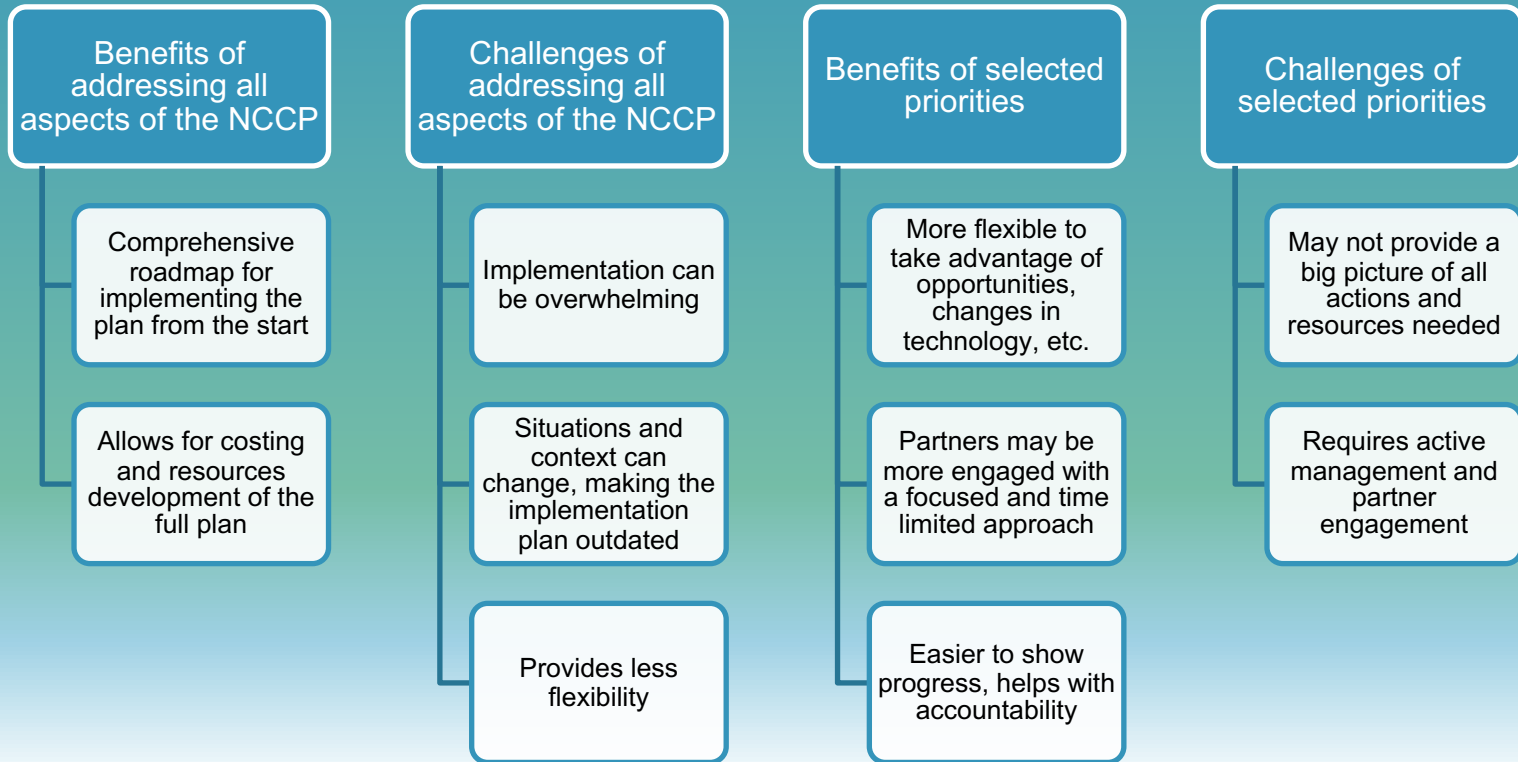

FOR THE ENTIRE PLAN  
OR JUST FOR SPECIFIC  
PRIORITIES IN THE  
PLAN

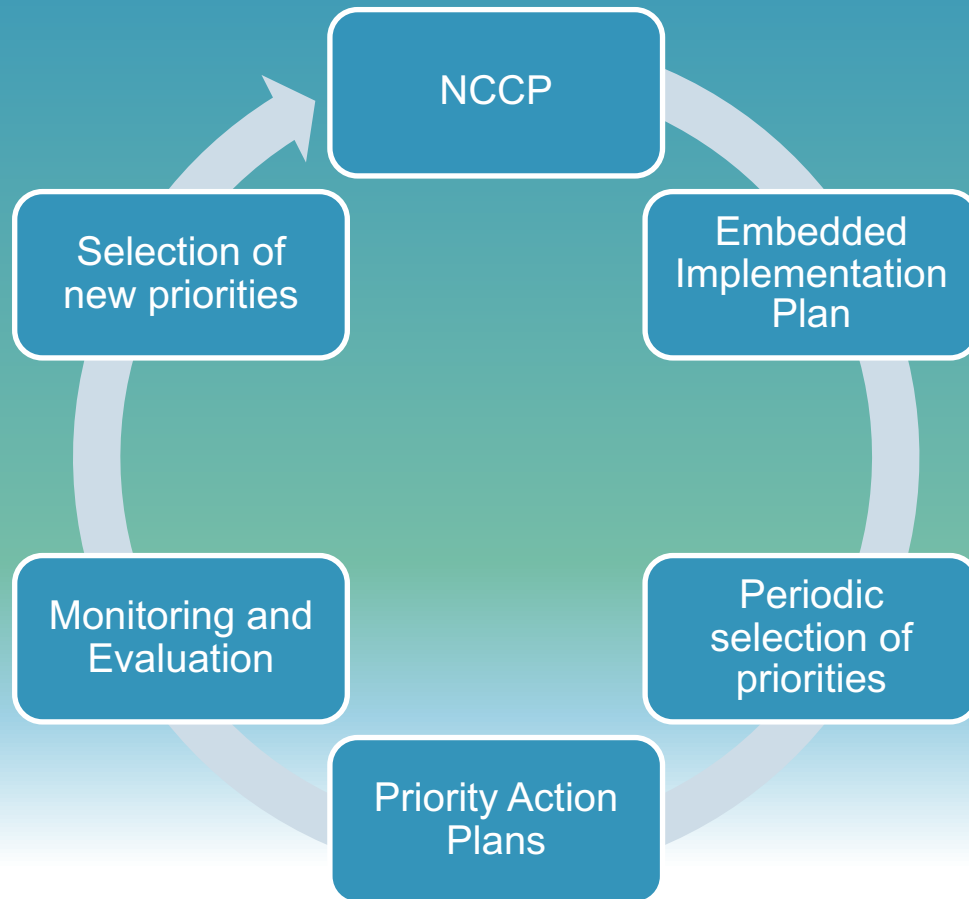

A COMBINED  
APPROACH

# Q: Should a NCCP implementation plan address all aspects of the NCCP or just selected priorities?

# A combined approach may be best

# An example of an implementation plan...

## SECTION 5 IMPLEMENTATION FRAMEWORK

### 1. PREVENTION

**GOAL: Make screening services and early detection of cancer available for all Nigerians**

ACTIVITIES	OUTPUT	LEAD MDA	KEY PARTNERS	RISK	MITIGATION STRATEGY	DELIVERY/ COMPLETION DATE
Invest in nationwide access to information on lifestyle modification, HPV vaccination	Nationwide access to information on lifestyle modification, HPV vaccination	FMOH (NPHCDA)	NGOs/ CSOs/ Private sector	Political will from policy makers, Opposition from religious groups, Availability of funds in view of competing health needs, Maintaining the cold chain	Legislation, public education enlightenment programme	2022
Develop health promotion programmes on healthy lifestyle, health educate *PWA on effect of direct exposure to sunlight	Positive change in lifestyle. Protective effect of sunscreen.	FMOH	NGOs/ CSOs/ Private sector	Resistance to changes	Educate Key opinion leaders and community influencers.	2022
Legislate against smoking, alcohol and carcinogenic chemical content of processed foods.	Legislation passed on the use of tobacco, alcohol and carcinogenic chemical content of processed foods	FMOH	NGOs/ CSOs/ Private sector	Resistance to change	SBCC	2022

## Nigeria National Cancer Control Plan 2018-2022

# Steps to Develop a Priority Specific Implementation Plan

1. Identify priorities from the NCCP

2. Identify partners, stakeholders

3. Work with partners to develop an action plan

- Tasks
- Responsibility
- Stakeholders to engage
- Timeframe
- Resources (have/need)
- Measures to track progress

4. Take action:

- Priority working group leads
- Coordinate with stakeholders
- Ensure work is evidence based
- Consider current context/political support and adjust

5. Track and communicate progress

# Identify Priorities (because you can't do it all at once)

Identifying priorities allows you to:

- **Stay focused on outcomes:** Prioritize at the NCCP objective level (measurable objective or goal)
- **Be strategic about resources:** Seek resources for what is most critical
- **Engage partners:** Partners are more likely to work on something specific, timebound, actionable
- **Build in flexibility:** Adapt to changes in evidence, technology, political support

# Sample Criteria for Identifying Priorities

- Is this a significant area of need in our country?
- Does this effort have a reasonable chance for success?
- Do we have or will we be able to obtain resources to successfully implement the priority?
- What is the likelihood that we will be able to recruit other individuals and organizations to work on this over the few years?
- Will this add value to our country's cancer efforts?

# Develop action plans for your priorities

## PRIORITY ACTION PLAN

Priority Objective from the Cancer Plan:

Priority Strategy:

Expected Outcomes:

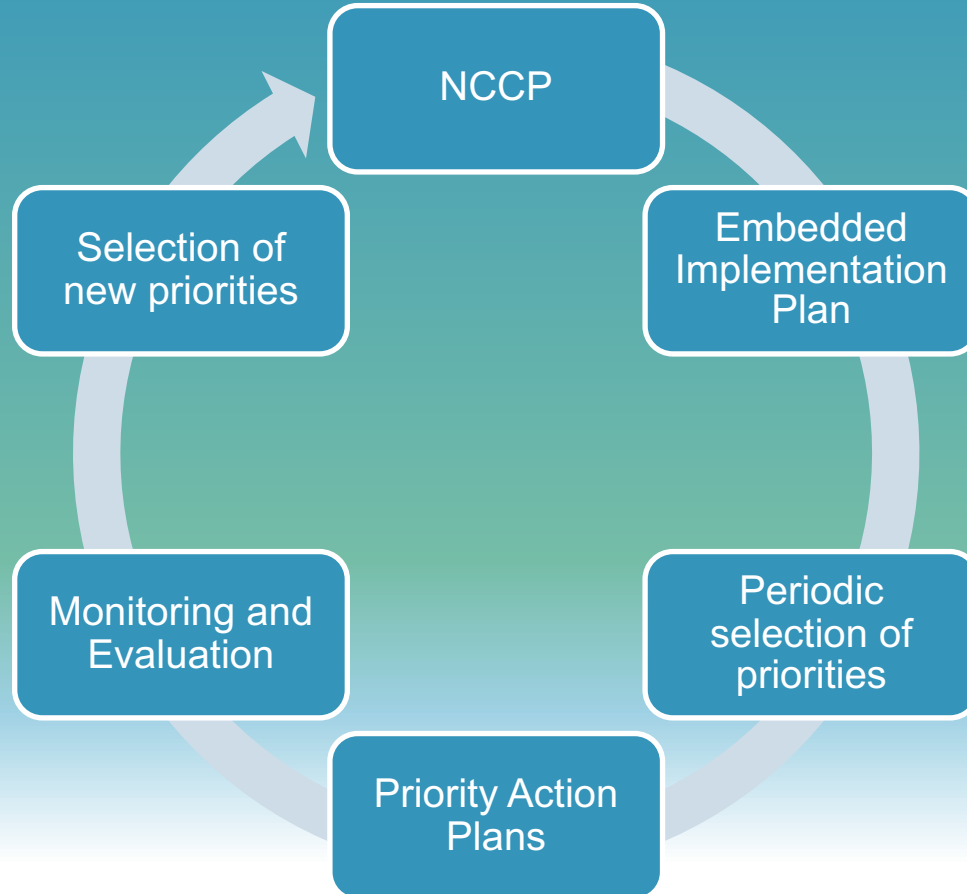

Evaluation Milestones (What, When, Targets):

Major tasks needed to implement the priority?	Who is responsible for this task?	Partners & stakeholders to contact & work with	Due Date	Resources we have (including in-kind)	Resources we need (including in-kind)	How will we track our progress?

- Build on existing programs and systems
- Track progress on the tasks needed to meet measurable outcomes – policy development, data collection, etc.
- Anticipate challenges – in resources, partner involvement, political support, time it takes to complete tasks – and adjust plans as needed

Nine Habits of Successful Comprehensive Cancer Control Coalitions
