Collaborative Pathway for AMR and Cancer Program Alignment

Step 1	Step 2	Step 3	Step 4	Step 5	Step 6	Step 7
Establish the case for collaboration	Identify and engage AMR focal points	Advocate for policy integration	Promote joint planning and governance	Strengthen workforce capacity	Support implementation of AMS and IPC	Ensure access to quality antimicrobials and diagnostics
Frame AMR as a cancer care issue Use evidence and case studies	Map key stakeholders Initiate formal communication	Propose AMR inclusion in NCCPs Align with WHO guidance	Establish joint working groups Organise joint meetings	Integrate AMR into training Encourage cross- training	Champion antimicrobial stewardship (AMS) in cancer care Ensure infection prevention and control (IPC) protocols	Advocate for procurement policies for cancer and antimicrobials
			Step 8			
Monitor and evaluate progress
