

# International Cancer Control Partnership ECHO Program

## Welcome!

The session will begin soon.

Please:

- ✓ Put yourself on mute
- ✓ Turn on video if possible
- ✓ Use the chat to ask questions at any time
- ✓ Introduce yourself via chat when you enter the meeting

Note: These sessions will be recorded, and the recording made available to participants.

**SESSION 1: SETTING THE STAGE – ICCP ECHO PROGRAM ORIENTATION**

# ICCP ECHO Purpose and Outcomes

---

Increased knowledge about and awareness of NCCP implementation resources, tools

---

Increased knowledge about NCCP implementation strategies

---

Increased capacity to understand and identify factors influencing NCCP implementation

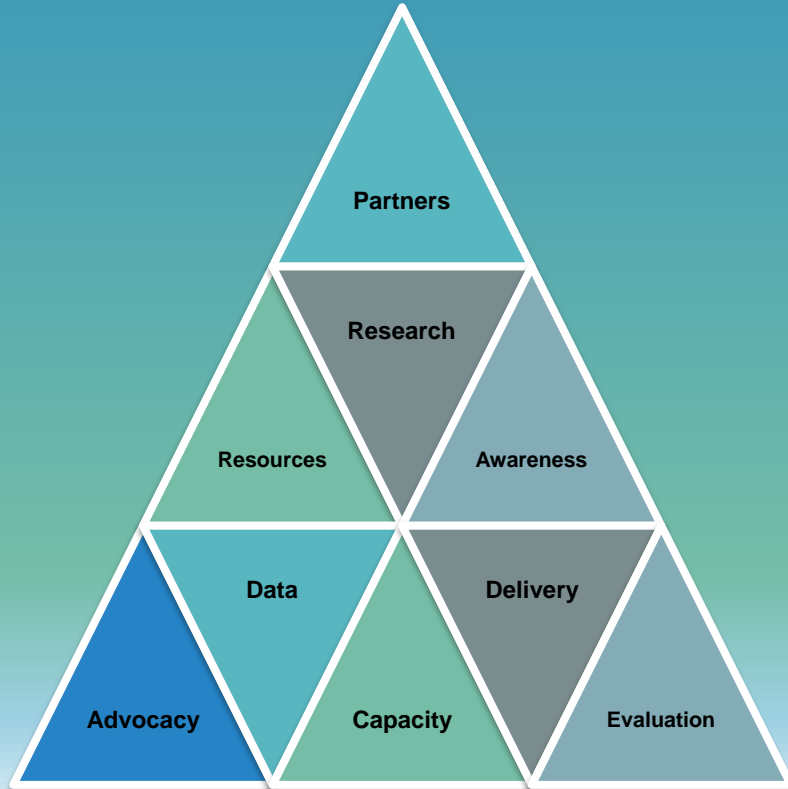

---

A network of expertise and practice among countries

---

Progress related to 1-2 NCCP implementation priorities

# NCCP Implementation Strategies

- Improving data collection and use of data for NCCP implementation
- National coordination of cancer control efforts and partners
- Importance of costing, financing, and allocating resources for NCCPs
- Resource mobilization and advocacy
- Mobilizing the healthcare workforce, capacity building
- Use of data for monitoring, evaluation, and research
- Improving service delivery, implementing system changes

# ICCP ECHO Program Structure

Monthly sessions

Country Team collaboration

- Self-led team discussions to work on priorities identified
- Pre-session questions to discuss and share answers during sessions

ICCP Portal, Basecamp, WhatsApp

ICCP Technical Assistance

ICCP ECHO evaluation

# Country Team Introductions

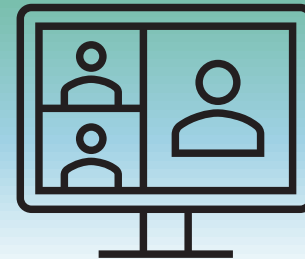

- Eswatini
- Sri Lanka
- Sierra Leone
- Zambia
- Zimbabwe
- Uganda

*And... ICCP ECHO Partner Introductions*

# ICCP ECHO Session Format

- Session Format:
  - 10-minute expert presentation
  - 10-minute case presentation *\*Assignments are in Basecamp*
  - 25-minute discussion
    - Each Country Team will have a chance to ask questions, respond to questions and share answers to pre-session questions
  - Ending poll for feedback

# Monthly Sessions: ICCP ECHO Session Topics 2022-2023

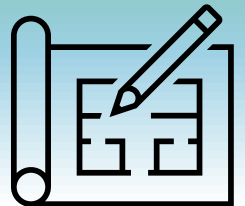

- November: ICCP ECHO Orientation
- December: Sharing/presentation of country priorities
- January: Building partnerships and engaging collaborators in NCCP implementation, including advocates
- February: Creating a NCCP implementation plan
- March: Costing and financing the NCCP
- April: Monitoring and evaluation of the NCCP, including improving data collection/use
- May: Mid-point Progress Review Session: Country team sharing about progress with implementation priorities
- June: Improving service delivery through NCCP implementation (e.g., reducing time from diagnosis to treatment)
- July: Integration of NCCP efforts with other health programs and systems, including data systems
- August: Mobilizing healthcare workforce through NCCP implementation
- September: Supporting research through NCCP implementation, including implementation research
- October: Sustaining NCCP efforts – Capstone Session

Session topics and case presentation assignments are on Basecamp

# Between Sessions: Country Team Collaboration

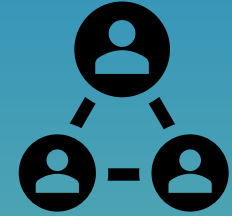

## Working on Country Team NCCP Priorities: Criteria

- Is this something in line with/from our National Cancer Control Plan?
- Is it realistic to make significant progress on this priority over the next 12 months?
- Is this something we can work on together as a team?
- Are there existing programs, resources and partners we can leverage to make progress on this priority?

# Between Sessions: Country Team Collaboration

- Discuss pre-session questions
  - 1-2 questions for Team discussion to explore how you are doing with a specific NCCP implementation strategy
  - On Basecamp, WhatsApp
- Technical Assistance Option
  - Country Teams can request assistance from the ICCP on specific topics related to NCCP implementation
  - ICCP Technical Assistance workgroup will triage request to appropriate partners who will set up a discussion with the team
