

International Cancer Control Partnership ECHO Program

Presenter: Xolisile Dlamini

Session Topic: *Building Partnerships and Engaging Partners in NCCP Implementation*

Presentation Date: January 18, 2023

Internal and external Partners and how do you coordinate their efforts

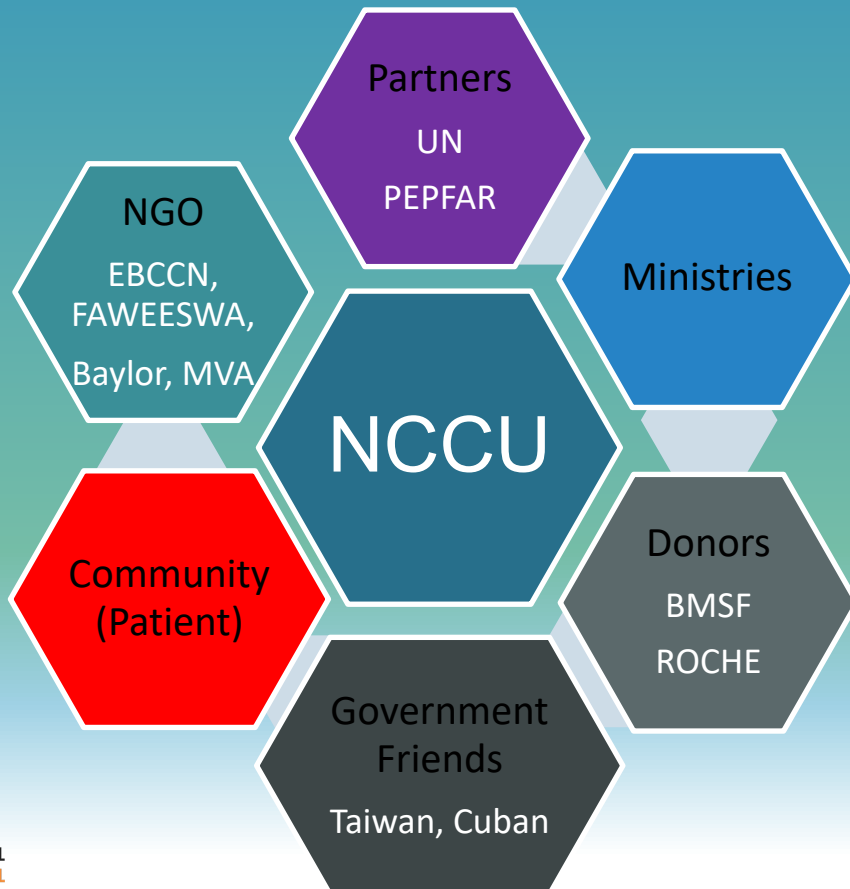

Internal	Support
Non-government organization like Eswatini Breast and Cervical Cancer (EBCCN), FAWESWA	contributing to the elimination of cervical cancer through sensitization screenings and precancerous treatment to all women
Eswatini Hospice at Home	Palliative care
Rock'n Horse	Childhood cancers
Religions (Faithbased and Traditional Organizations)	Cancer advocacy/ cancer prevention
Government Ministries	Cancer advocacy/ cancer prevention

External Partnership	Support
PEPFAR and PEPFAR Implementing Partners	Technical and Service delivery support: Supported over thousands of women living with HIV through screening and precancerous treatment
UN partners (WHO & UNFPA)	Technical and financial support, guidelines and policy development
Bristol Myers Squibb Foundations	Financial support: for screening, diagnosis and treatment of confirmed to reduce early morbidity and mortality
Taiwan Medical Mission	Financial support: for screening, diagnosis and treatment of confirmed to reduce early morbidity and mortality
Private sector: Roche	Co-designing and strategic information

Address challenges with coordinating partner efforts

- Quarterly Steering committee (incl. SMT- Head quarters)
- Technical working Groups
 - NCCU – quarterly
 - Sub-NCCU
 - Cervical cancer screening, Paediatric, palliative, clinical, strategic information

Advocates engaged in plan implementation

Political will support

- Engage the MoH leadership in all the NCCP activities
- Transparency – Program supporting system including the finances
- Engage them in any NCCP capacity buildings (internal and external)
- Share the NCCP reports (office/projects/grants etc.)

Thank you
