

International Cancer Control Partnership ECHO Program

Presenter: Kelechi Uzor.

Title: Nigeria Team Mid-Point Progress Update

Date: 18th May 2022

Priority and Progress

- **Priority statement:**

- Prioritize access to pediatric cancer care & treatment

- **Progress so far:**

- Implementation of pilot pediatric patient navigation program in two tertiary hospitals ongoing
- Expanded access to anti-cancer medicines for pediatric oncology through the cancer access partnership

Challenges and Needs

- **Challenges:**

- High out-of-pocket costs
- Supply chain disruptions

- **Tools and/or expertise needed:**

- Increased investments in global pediatric oncology
- Enhanced data collection & management infrastructure
