ICCP ECHO

Building Partnerships and Engaging Partners in NCCP Implementation

Dr. Lisa Stevens
Director, Programme of Action for Cancer Therapy
International Atomic Energy Agency

January 18, 2023
To improve comprehensive cancer control, national ministries of health must consider cancer priorities and their health system capabilities to deliver sustainable programmes.

### Consideration of all areas of the cancer continuum

- Prevention
- Early diagnosis
- Screening
- Diagnosis and staging
- Treatment
- Palliation
- Survivorship
- Surveillance

### Requires an enabling environment
